[Gold King Mine Deployment Info - DRAFT 8-17-15.doc](#)
[Gold King current staffing table 08172015.xlsx](#)
[Gold King Staffing Plan 081615 full.xlsx](#)

Sorry, forgot attachments. I just found this deployment doc in our share drive, but might be very draft. I assume Tana put it there.

Nadia Hollan Burke

Hi--Thanks for your help. Tana has some information on the Deployment information for GK , hopefully she can get that to you, not sure we have an official guide. We are still trying to sort out our official resources needs. In the meantime, we have been working on trying to capture a list of all the staff working on the response and also developing a staffing projection chart. I understand that Asset tracker might be used instead of this staffing chart---I called to talk with you about it, but didn't leave a message, hopefully we'll touch base soon. We've had some version issues, but here's what I have at the moment for both. They are still in the process of being updated and QC'd.

Hi Kaye and Nadia,

Would you please send us your projected staffing needs and any resource needs you may have? Also, please send me the GK RSC Deployment Guide so I can create cheat sheet for you.

Matt
